Mr. Samarneh,

Thank you for speaking with me earlier today.

As I mentioned, I work for the US EPA, and we are assisting the TCEQ in gathering in operational assessment information on the WWTPs that were potentially affected by Hurricane Harvey.

I have compiled a list of about 38 City of Houston facilities. They are located on the attached spreadsheet. Your staff can click on the area next to a response box or line and enter the information. Most questions just require an "X".

Also attached is the blank Assessment Form should you want to see the original that went onto the spreadsheet.

Thank you for helping us with the assessment.

If there are other City of Houston WWTPs that are not on this list, please add them and let me know which ones they are by Name and Permit No. (WQ001.....).

Sincerely, and best wishes to you all at this difficult time.

Juan
